DETAILED ACTION

Allowable Subject Matter

- 1. Claims 1-19 are allowable over the prior art of record.
- 2. The following is an examiner's statement of reasons for allowance

As per independent claims 1,9,18,19, the claim limitations pertaining to calculating a distance metric between cepstral covariance signature matrices, wherein the distance metric is defined by claims 1,18, or adjusting the sample matrix by adding a distortion matrix defined by the distance metrics, is not explicitly taught by the prior art of record.

With respect to the prior art of record, Netsch et al (5167004) teaches the concept of calculating covariance matrices for each speaker and associated word, performing a covariance matrix pooling, and cross referencing with a covariance matrix for each word (Fig. 9). Li (5995927) teaches computation of rotation matrices tied into the covariance matrix (Fig. 2). Chagnolleau ("Indexing telephone conversations.....analysis) teaches manipulation of cepstral coefficients in matrix format (pp 881-882). Brummer et al ("An Eucldean Distance Measure....Recognition) teaches various expressions for covariance matrices (pp. 168-169). Schmidt et al ("Covariance Estimation...Identification") teaches replacement of covariance calculation with correlations (pp. 335). However, none of the prior art references explicitly teach the claim limitations of the independent claims as

Art Unit: 2655

noted above. Furthermore, it would not have been obvious to one of ordinary skill in the art at the time the invention was made to modify the teachings of the prior art of record to obtain the recited claim limitations of the independent claims as noted above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Opsasnick, telephone number (571)272-7623, who is available Tuesday-Thursday, 9am-4pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mr. Wayne Young, can be reached at (571)272-7582. The facsimile phone number for this group is (571)272-7629.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group 2600 receptionist whose telephone number is (571) 272-2600, the 2600 Customer Service telephone number is (571)272-2600.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
